

VELQUENCH 200

“VELQUENCH 200” is accelerated Quenching oil formulated from high quality selective base stocks.

FEATURES

- The product is blended with selective base stocks which ensures excellent oxidation and chemical stability outstanding fluidity and low volatility.
- The product incorporates a fixed oil and an antioxidant. The fixed oil imparts accelerated quenching characteristics to the oil, the antioxidant enhance the oxidative stability and service life.

BENEFITS

- Accelerated quenching.
- Excellent surface finish.
- Superb oxidation stability, ensuring extended service life.
- Low volatility, which ensures low consumption levels and reduced top up rates.
- High flash point result in operational safety.

CHARACTERISTICS

- High Flash Point
- Excellent oxidation and chemical stability
- Low Volatility

APPLICATIONS

The accelerated quenching properties make the product ideal for quenching operations, which are characteristics of automotive components industry, industrial and automotive fasteners, automotive springs.

TESTING SPECIFICATION

Quench Time	12-14 Seconds
Viscosity index Min.	90
Kin Viscosity at 40 °C CST	19-25
Kin Viscosity at 100 °C CST	4.2-4.5
Flash Point Minimum °C	195
Pour Point °C	0
